

  
 MAP OF  
**TEXAS,**  
*Compiled from surveys on record in the  
 General Land Office of the Republic,  
 to the year 1839, by  
 RICHARD S. HUNT and JESSE FRANDEL.  
 New York, Published by J.H. Colton*

Of this section of country very little  
 is known. From the fact that the Suces  
 on the south side and Rio Grande on  
 the north side are without any consid  
 erable tributaries, it is inferred that  
 it is mostly a dry elevated prairie

We the undersigned have inspected the above map  
 and give our approval as being a compilation from  
 the best and most recent authorities
